

google::protobuf::Message

```
classDiagram
    class google_protobuf_Message["google::protobuf::Message"]
    class vss_state_RGB["vss_state::RGB"]
    vss_state_RGB --|> google_protobuf_Message
```

The diagram illustrates a class inheritance relationship. At the top, a white rectangular box with a thin grey border contains the text 'google::protobuf::Message'. Below it, a grey rectangular box with a thin black border contains the text 'vss_state::RGB'. A solid blue arrow points vertically upwards from the top center of the 'vss_state::RGB' box to the bottom center of the 'google::protobuf::Message' box, indicating that 'vss_state::RGB' inherits from 'google::protobuf::Message'.

vss_state::RGB
